

DEFINITIONS AND LICENSE ENTITLEMENT INFORMATION

Automator: The below terms shall apply to this Axway product provided under the following deployment and pricing models:

Deployment Model: Perpetual

Pricing Model: Production Servers

1. DEFINITIONS. As used herein, the following capitalized terms shall have the following meanings:

- **"Environment"** means the combination of one or more systems and software that is directly connected with each to form and provide a specific service.
 - **"Disaster Recovery (DR) Environment"** means an inactive Environment which starts executing when the Production Environment fails.
 - **"Non-Production Environment"** is an Environment used for processing data for other purposes than Production processing. Examples of these are: Development, Test, UAT, QA, Integration Testing.
 - **"Production Environment"** is an Environment used for data processing to support the actual business processes of Customer, Production Environments are typically connected to Production Instances of other software and/or external business partners, for business data exchange.
- **"Instance"** means software running as a single occurrence loaded in memory.
- **"iSeries Server"** means the IBM iSeries, also known as AS400.
- **"Mainframe Production Server"** means a Production Server executing on IBM Z/os.
- **"Modeling Server"** means the Automator component used for configuration, design, deployment, and tracking.
- **"Production"** means use to support the actual business processes of Customer.
- **"Production Server"** means any Automator runtime component installed on a server to execute Automator objects of type "Job."

2. ENTITLEMENT INFORMATION AND RESTRICTIONS. Customer entitlements are in all cases limited to the applicable Usage Metrics specified in the Product Schedule and as may be otherwise specified herein.

a. Included Entitlements. Unless otherwise specified in this Order Form, Customer's license entitlements shall include the following entitlements:

i. Production Servers. Customer is entitled the right to use Automator up to the total number of Production Servers and Modeling Servers specified in the Product Schedule.

b. Optional/Selectable Entitlements. If purchased by Customer as set forth in the Product Schedule above, Customer's entitlements shall include the following option(s):

i. Environments

- **Production Environments.**
- **Non-Production Environments.** Non-Production Environments may not be used for Production processing or data exchange.
- **Disaster Recovery Environments.** For clarification and the avoidance of doubt, if the Disaster Recovery Environment is used for Production use, use of the Disaster Recovery Environment will be considered Production use.

ii. SAP Connector

iii. JDE Connectivity

iv. Peoplesoft Connectivity

v. Movex M3 Connectivity

vi. Forms.

DEFINITIONS AND LICENSE ENTITLEMENT INFORMATION

- vii. **Sentinel.** Customer is entitled to use Sentinel, including Sentinel Web Dashboard, solely for the purpose of monitoring transactions flowing through Automator. The license to Sentinel includes an unlimited number of users and Instances of Sentinel.
